GREETING.

We take pleasure in handing you our Annual Catalogue and Price List of Small Fruits and Nursery Stock, and thank our many patrons and friends for past favors and solicit a continuance of your patronage. To those who have never bought any stock of us, we ask that you give us a trial order and we think we can make it to your interest, for our stock is very fine and our prices exceedingly low for good stock. We employ no agents, hence can save you money by dealing direct. We are large growers of Small Fruits for Market, and you will find that our prices are as low as it is possible for good plants to be grown.

Our list of varieties may not be as long as some others, but you will find everything of merit listed. We have discarded a great many as worthless for cultivation. Our stock of Fruit Trees is extra fine, and we guarantee satisfaction in every case. We have nothing on our list but what we believe to be good and can be recommended to the planter. We solicit YOUR ORDERS, feeling confident our stock will prove satisfactory and our reputation for doing an honest business is a guarantee that in the future, as in the past, we shall endeavor to make every customer a permanent one.

Through our Catalogue and Price List we can talk to the grower. You can buy just what you want direct from us and make your own selection in the quiet of your own fireside. The description given you can be relied on as honest. Nothing is highly colored to make sales. Our aim is to give a dollar's worth for a dollar. Our prices will be found very low, certainly as low as first-class stock can be sold. We pack lightly and securely, thereby insuring plants and trees to arrive in good condition, and also reducing freight or express charges to a minimum. Any and all orders placed with us will have our prompt and careful attention.

Address all orders and correspondence to

D. B. GARVIN'S SONS,

City Address,

2227 Market Street,

WHEELING, W. VA.

Farm $2\frac{1}{2}$ miles east of city.

TERMS AND INSTRUCTIONS.

REMIT by Money Order or Registered Letter, Draft or Express Money Order.

PAYMENTS. Invariably in advance. Goods sent C. O. D., provided one-fourth the amount is sent with the order.

Be sure to write your name and address plainly; giving Postoffice, County and State every time you have occasion to write us. Keep correct copy of your order and check off the stock when it arrives, and you will seldom have cause for complaint.

CLAIMS, If any, should be made on receipt of goods, and if just will be cheerfully adjusted. Claims made after ten days will not be entertained. We send out only good stock in good condition, carefully packed, and guarantee stock to arrive in good condition.

GUARANTEE. We warrant our trees and plants true to name, with the understanding that should any prove untrue to label, we will refund the purchase money, or replace with those that are true to name. It is mutually agreed between the purchaser and ourselves that our guarantee shall in no case make us liable for any sum greater than that originally paid for stock. The greatest of care is taken to have everything true to label.

SHIPPING. We deliver all goods to forwarders here free of charge, after which we have no control over them.

SUBSTITUTION. Should the supply of a variety become exhausted (which will occasionally occur in all nurseries), we will substitute in its stead a variety of same season of ripening and similar in other respects unless No Substitution is marked in order.

SHIPPING FACILITIES. We have as good shipping facilities as any nursery in the United States; having the Cleveland and Pittsburg; the P., C., C. & St. L., or "Pan Handle Route," which gives us direct communication with all their branches; the C., L. & W., which connects with the L. S. & M. S.; the Wheeling and Lake Erie, which represents the "Big Four" and Great Erie system; the Ohio River R. R., which reaches all points from Pittsburg to Cincinnati; also Pittsburg and Cincinnati packets daily on the Ohio river; the B. & O. with all its branches north, south, east and west.

Express Companies are Adams, American, United States, B. & O. and Wells Fargo.

SHIPPING SEASON. Usually begins about the 25th of March and continues to May 15th, and from October 1st until ground freezes. No charge for packing or Boxes.

BERRY CRATES AND BASKETS.

We want to call the attention of those of our friends and patrons who grow small fruits to our Excelsior berry crate and Acme Gift crate. We can safely guarantee these crates and baskets to be strictly first class in workmanship and material and the best to be had for the price. It is essential that berries be marketed in nicely made, clean and neat packages, as well as that they arrive in good condition, as looks go a long ways with buyers. Excelsior crates have one-inch dividers, thus giving room to round up baskets without mashing the fruit. It holds 32 quarts, or one bushel. The baskets are made so raspberries will not go through the corners, and are light and strong. Price 45c each. Filled with baskets, 65c. \$50 per 100.

We can recommend our Acme Gift crate to be the best on the market and warrant it to give satisfaction. Filled with baskets 30c each. \$25.00 per 100. Baskets put up in bales of 500, \$4.50 per 1,000; in lots of 5,000, \$4.00 per 1,000.

STRAWBERRIES.

Dozen mailed free. Add 20 cents per 100 if to be sent by mail. Write for special prices on lots of 5,000 or more.

BRANDYWINE—A new strawberry being largely planted and much liked. In plant it is a luxuriant grower, healthy and early and very productive; blossom perfect; fruit large, of good form, bright red all over and good quality. Season medium to very late. It succeeds on any soil. The Delaware State Experiment Station reports Brandywine to be the best among those tested. We are planting more of this variety as we have no doubt but that it will fill a "long felt want" in the list of strawberries. Its lateness, color and other qualities will insure its being a favorite. 25 cents per dozen; 75 cents per 100; \$3.00 per 1,000

STAR—Large, perfect shape, a glossy crimson color; ripens as well as most large berries. All the berries average large; in quality it is the best. One of the best new varieties. 25 cents per dozen; 75 cents per 100; \$3.50 per 1,000.

JESSIE—Plant a strong, robust grower; stout fruit stems, which hold the fruit well off the ground; color, light red. One of the largest strawberries. 25 cents per dozen; 75 cents per 100; \$4.00 per 1,000.

MARSHAL—This is one of the new varieties that has come to stay. Plant a healthy grower; fruit large, of regular roundish form; dark, glossy red and of better quality than is often found in so large berries. 25 cents per dozen; 75 cents per 100; \$4.00 per 1,000.

LOVETT'S EARLY.

PARKER EARLE—This will take a high rank, not only for its yield and beauty, but on account of its adaptability to light soils and its enduring foliage in hot, dry weather; qualities that are rare now among strawberries. The plant is a robust grower, with perfect flower and is very productive. The berries are large, conical, with short neck, regular and uniform, of a glossy, bright crimson color, flesh firm, reddish and in quality very good. For vigor of plant, yield and quality combined, it is hardly surpassed by any other sort. Mid-season. 25 cents per dozen; 75 cents per 100; \$4.00 per 1,000.

EUREKA. (P.)—This is a strong grower, with large healthy foliage; ripens late; berries very large, fine form, moderately firm, excellent quality; yields large crops; one of the most promising new varieties. 25 cents per dozen; \$1.00 per 100; \$4.00 per 1,000.

HAVERLAND. (P.)—Exceedingly productive and the fruit is large and

HAVERLAND (P).

fine. On good rich soil it is one of the best, and is profitable by reason of its great productiveness and earliness. It is not sufficiently firm for very distant shipments, but excellent for near market. Plant healthy and vigorous. Berries large, handsome and good; though not of the best quality, rather long in shape and of a bright, glossy crimson. It has been largely planted and has given much satisfaction, having been found very profitable for market. Early. 25c per dozen; 75c per 100; \$2.75 per 1,000.

WARFIELD NO. 2.—We hear no unfavorable reports of this grand berry. It succeeds everywhere, and has already become one of the leading market berries. It is of good size, excellent flavor, dark, brilliant red color; firm; one of the best shippers; commands the best prices in the market; blossoms pistillate, a wonderful, vigorous grower,

making plants in abundance; perfectly healthy, ripens with the Crescent, but more productive and holds its size better. If kept in hills its fruit is very

LOVETT'S EARLY. This new berry was introduced by the J. T. Lovett Co., and is a first-class berry. Lovett's Early is, without doubt, the most promising of the early varieties. The plants are rank and vigorous growers, the fruit ripens early, is large and uniform in size, firm and of a high, rich color, splendid in flavor. It is perfect flowering and very desirable as an early variety and prolific bearer.

Price.— 25c per dozen; 75c per 100; \$2.75 per 1,000.

large, scarcely equalled by the Sharpless, and of a much better form and color: surely a good one. 25 cents per dozen; 50 cents per 100; \$2.50 per 1,000.

CRAWFORD—This is a good grower, making an abundance of large plants, with remarkably large, green, healthy foliage, blossom perfect. Fruit very large, never coxcombed, bright red color, flesh firm and of excellent quality, ripens late; needs good treatment to make it pay best. 25 cents per dozen; \$1.00 per 100.

BUBACH NO. 5. (P.)—This is one of the very best in every respect. No unfavorable reports from anywhere. The foliage is very large, dark green and healthy; growth strong and vigorous, producing plants plentifully. The fruit is of very uniform large size, fine form, bright crimson color, ripening all over at once; of excellent quality; begins to ripen with the Crescent, but continues a long time in bearing; very productive, holds its size well to last picking. No one should fail to plant some of the Bubach. 25 cents per dozen; 50c per 100; \$3.00 per 1,000.

CRESCENT. (P.)—Very few varieties are so immensely productive as is this, and none succeed better under such general neglect. The plant is most vigorous, and for best results should be allowed to mat closely. The berries are of medium size, rather poor in quality and a little soft for shipment. Bright scarlet color and quite attractive. A popular sort for market on account of its great productiveness and easy culture. Early. 25 cents per dozen; 50 cents per 100; \$2.50 per 1,000.

MICHAEL'S EARLY—This is the earliest of all, ripens a full week before the Crescent begins and ripens a large share of the crop at once. It is of large uniform size, very regular, conical in shape and excellent quality. In growth it is wonderful, surpassing anything we have ever grown. The plants are very large, with long, deep roots. Foliage very large and free from rust. We are of the opinion that this is one that will do well everywhere. Two and one-half acres netted \$1,300 in 1889. Blossom perfect. One of the best fertilizers we have for early and medium varieties. 25 cents per dozen; 75 cents per 100; \$3.00 per 1,000.

RUBACH.

GANDY.—The best late Strawberry yet introduced, and the leading late variety with fruit growers all over the country. Its great merits have been quickly recognized, and there are few varieties that have so rapidly become a leading and popular sort. As a choice late sort, it is an entire success. In size and firmness, it is all that can be desired, and in vigor of plant and growth, it is eminently satisfactory; but under ordinary culture its yield is not so great as many expect. It is not essential to have heavy soil, but to produce best results it is necessary to apply fertilizers liberally. The berries are large, very uniform in size and shape, of bright crimson color, handsome and showy, very firm and good quality. Late to very late. 25 cents per dozen; 50c per 100; \$3.00 per 1,000.

CUMBERLAND TRIUMPH—A strong healthy grower, moderately productive; fruit large, even and smooth; already commands a high price and no trouble to find buyers. 25 cents per dozen; 50 cents per 100; \$3.00 per 1,000.

SHARPLESS—An old well known variety, plants strong and productive, fruit large and succeeds best on heavy soil. 25 cents per dozen; 50 cents per 100; \$3.00 per 1,000.

WILSON—The old reliable berry for general cultivation; a strong healthy grower; fruit medium size, but holds its own through the season. 25 cents per dozen; 50 cents per 100; \$3.00 per 1,000.

RASPBERRIES.

CUTHBERT. (Queen of the Market.) The leading late market variety and the best red raspberry in cultivation. No other of its class has proved of such general adaptability, and it is grown successfully in nearly all parts of the United States and Canada. The canes are hardy and of strong, rampant growth, with large healthy foliage, and exceedingly productive. Berries large, dark crimson, quite firm and of good flavor. More largely grown than all the other Red Raspberries combined. Season late. Doz. 50c; 100, \$1.00; 1,000, \$5.00.

SHAFFER'S COLOSSAL. An immense Raspberry both in cane and fruit and especially adapted to the South. Canes are of wonderful vigor and size, hardy and enormously productive. Berries are large, of a dull purplish, unattractive color, rather soft, but luscious and of a rich sprightly flavor. Whilst its color and lack

of firmness renders it unfit for market purposes, it is unrivaled for family use and canning. Late. Doz. 50c; 100, \$1.00; 1,000, \$8.00.

NEMAHA. We have had the Nemaha growing near the Gregg and other varieties, and it has proven much harder than the Gregg, Souhegan and Tyler; bearing a full crop where the Gregg was almost a total failure. We have claimed for Nemaha that it was hardier than Gregg and three years' trial proves our claim to be well founded. While the Gregg has therefore been our largest and most profitable black-cap, it has failed in hardiness; and we have seen for a long time that any variety that would equal it in size and productiveness and prove hardier, would be a great boon. Doz. 50c; 100, \$1.50; 1,000, \$9.00.

GREGG. (Cap.) The leading black-cap and a popular market sort. Canes of strong, vigorous growth, and under good culture very productive. Berries very large, covered with bloom, firm, meaty, and of fine flavor. It requires good, strong soil to produce best results and responds liberally to generous treatment. It is not entirely hardy, but suffers during unusually hard winters. Doz. 50c; 100, \$1.00; 1,000, \$6.00.

GREGG.
1,000, \$7.00

KANSAS. There are few if any of the black-cap Raspberries that impress us more favorably than this. It succeeds wherever tried, and will fast supercede such varieties as the Gregg. For a market berry we believe it has no equal. Its handsome appearance will always command a ready sale; in quality it is as good as the best. Plant is a strong, vigorous grower, with healthy, clean foliage. Can highly recommend it for general planting or a home garden. Doz. 50c; 100, \$1.00;

LOVETT.

LOVETT RASPBERRY. This is a new black-cap, a chance seeding from Indiana. It has been thoroughly tested in field culture where it originated, and also in New Jersey proved to equal the Gregg in size; to be entirely hardy, very early in ripening, enormously productive, a strong grower, superior in firmness and with less bloom than the Gregg. In brief, the ideal black-cap Raspberry. One thousand dollars were paid for the control of the original stock of it. 50c per dozen; \$1.50 per 100; \$6.00 per 1,000.

PALMER. A new variety of real merit; very productive and of large size; a good healthy grower and perfectly hardy; too much cannot be said in its praise. A very valuable new variety. 50c per dozen; \$1.00 per 100; \$6.00 per 1,000.

'SOUHEGAN' OR TYLER. A very early black-cap and the leading early market sort. It ripens its entire crop in a very short period. Canes vigorous and hardy, with foliage healthy and free from rust, wonderfully productive. Fruit of good size, jet black, with but little bloom; firm and of sweet pleasant flavor. 50c per dozen; \$1.00 per 100; \$6.00 per 1,000.

SOUHEGAN.

GOLDEN QUEEN. The best Yellow Raspberry yet introduced. Briefly stated it is a Yellow Cuthbert of large size, great beauty, high quality, hardy and productive. It is of a beautiful translucent amber color and exceptionally firm. The canes are of the strongest growth and succeed admirably in the South and in California. It is a most valuable Raspberry for the amateur, and no home garden is complete without it. Its beauty, size and fine quality render it indispensable for table use. Ripens in mid-season. 50c per dozen; \$1.00 per 100; \$9.00 per 1,000.

BLACKBERRIES.

ERIE. Noted for its good quality, earliness, hardiness and productiveness; it is well worth a trial. 75 cents per dozen; \$2.50 per 100; \$20.00 per 1,000.

Lawton. An old favorite, esteemed for its productiveness and large size; season medium to late. 50 cents per dozen; \$1.50 per 100; \$10.00 per 1,000.

EARLY HARVEST. The earliest blackberry we have, but it is not hardy in this section. It is a valuable berry for growers where it succeeds, as it ripens in July. 50 cents per dozen; \$1.50 per 100; \$9.00 per 1,000.

WILSON JUNIOR. Takes the place of the old Wilson Early. It possesses all its good qualities, and is harder and more productive, combining size, earliness and productiveness with the fine appearance and market properties of that variety. It is also without double or rose blossoms, the fruit in all respects fully equals that of its parent, Wilson's Early, which it has now completely superceded; holds its bright color, and carries well to market. It proves entirely hardy in New Jersey, withstanding the winters here without injury, quite unprotected. 50c per dozen; \$1.50 per 100; \$8.00 per 1,000.

SNYDER. Valuable for the North by reason of its extreme hardiness; wonderfully productive and though the berries are but small to medium in size, they are of sweet, juicy flavor, and when fully ripe without the hard core of many other sorts. Until the appearance of the Erie this was the standard early sort of the north and Northwest, and is still very popular, being more largely planted than any other of the iron-clad varieties. 50c per dozen; \$1.00 per 100; \$7.00 per 1,000.

DEWBERRIES.

LUCRETIA. Decidedly the best of all Dewberries. As early or earlier than Early Harvest Blackberry and larger than Erie. It is a superb fruit; large and handsome of a shining jet black; melting, and of a delicious quality. The plant is entirely hardy everywhere; a healthy, strong grower, and exceedingly productive. We can confidently recommend the Lucretia as being a fine acquisition to the family garden, and a delightful introduction to the blackberry season. 50c per dozen; \$1.50 per 100. (If sent by mail add 10 cents per dozen; 50 cents per 100 for postage.)

GRAPES.

CONCORD. The old reliable black grape that succeeds everywhere and is a general favorite. Too well and favorably known to need description. Price 10 cents each; 75 cents per dozen; \$3.00 per 100.

MOORE'S EARLY. (Black.) Vine a good grower, very healthy and hardy; resemble the Concord; berries larger. 15 cents each; \$1.00 per dozen; \$5.00 per 100.

NIAGARA,

NIAGARA. (White.) Vine a vigorous grower and very productive; succeeding well almost everywhere; bunch large and of superior quality. 20c each; \$1.50 per dozen; \$5.00 per 100.

EATON. Vine a good grower, healthy, hardy and productive; quality very much like Concord, but the bunch and berry are much larger and more attractive; bunch very large, compact and double-shouldered; berries very large, many one inch in diameter, juicy; ripens with Concord or a little earlier. 25c each; \$2.50 per dozen; \$20.00 per 100.

BRIGHTON. (Red.) Vine a vigorous grower, comparatively healthy, hardy and productive; bunch medium to large; long, compact and shouldered, thin skin and of best quality. 15c each; \$1.00 per dozen; \$5.00 per 100.

EMPIRE STATE. (White.) A strong grower, with large healthy foliage; bunches medium long, compact; quality best. 20 cents each; \$2.00 per dozen; \$6.00 per 100.

MOYER. Originated in Canada. It is extremely early, ripening three weeks before Concord. It is sweet, tender, and good as soon as colored; very productive; bunches medium size, compact and generally shouldered, it combines extreme earliness and hardiness with superior quality. 15 cents each; \$1.50 per dozen; \$7.00 per 100.

WORDEN. (Black.) Vine vigorous, healthy and productive; bunches large and compact; superior to Concord in quality, earliness and hardiness and less liable to rot. 15 cents each; \$1.00 per dozen; \$7.00 per 100.

Six or more grape vines of a variety at dozen rates, by mail, post paid; fifty or more of a kind at one hundred rate; one hundred grape vines of different kinds, if order amounts to \$5.00 or over at one hundred rate. \$10.00 worth of grapes at one hundred rate. Box and packing free.

Prices given for Grapes are for 2 year old vines. On year vines one-third off from above prices. Any variety not in this list can be supplied at regular rates or the same as any Nurseryman sells them.

CURRANTS.

FAY'S PROLIFIC. This is the most noted Currant at present under cultivation; it is healthy, vigorous and very productive; bunches three to five inches in length and holds its size well to the end of the bunch. Two year No. 1, \$1.00 per dozen; \$4.00 per 100.

VICTORIA. Very late red variety; fruit large, long, very productive and of excellent quality. One year, No. 1, 50c per dozen; \$3.00 per 100; Two year, No. 1, 75c per dozen; \$3.00 per 100.

CHERRY. Very large, deep red, rather acid, strong grower and productive. One year, No. 1, 50c per dozen; \$3.00 per 100. Two year, No. 1, 75c per dozen; \$3.00 per 100.

VERSAILLES. Similar to the Cherry; the best and most popular variety; the largest of all except Fay's; berries large and bright red crimson. Bushes very hardy and productive. One year, No. 1, 50c per dozen; \$3.00 per 100. Two year, No. 1, 75 cents per dozen; 3.00 per 100.

RED DUTCH. An old well known variety. Very productive. One year, No. 1, 50c per dozen; \$3.00 per 100. Two year, 75c per dozen; \$3.50 per 100.

WHITE GRAPE. This is one of the very best; very large and productive, and valuable for home and market use. One year, No. 1, 50c per dozen; \$3.00 per 100.

NORTH STAR. A promising new variety. The fruit is very sweet and rich in quality, firm, a good market berry, desirable as a dessert fruit in the natural state, and unequalled for jelly. 50c per dozen; \$3.00 per 100.

GOOSEBERRIES.

DOWNING. Very popular; large pale green, good quality; bush vigorous, hardy and prolific. One year, No. 1, 50c per dozen; \$3.50 per 100. Two years, No. 1, 75c per dozen; \$5.00 per 100.

HOUGHTON. The old well known sort, pale red, sweet and good, Houghton gives us annual crops of good sized fruit. It is enormously productive, does not mildew, and is in every way worthy a place in every garden. One year, No. 1, 50c per dozen; \$3.00 per 100. Two years, No. 1, 75c per dozen; \$3.50 per 100.

SMITH'S IMPROVED. Large pale yellow, good quality; bush of spreading growth and excessively productive. One year, No. 1, \$1.00 per dozen; \$3.00 per 100. Two years, No. 1, \$1.50 per dozen; \$6.00 per 100.

INDUSTRY. A new variety of foreign origin. Productive and exceedingly large fruit of dark red color and delicious quality; highly recommended in this country and in Europe. One year, No. 1, 15c each; \$1.50 per dozen; \$10.00 per 100. Two years, No. 1, 20c each; \$2.00 per dozen; \$10.00 per 100.

KEEPSAKE. This is one of the latest and most improved English varieties, fruit very large, green, and of the best flavor. One week earlier than Industry. Two years, No. 1, 20c each; \$2.00 per dozen.

Add 20 cents per dozen if to be sent by mail.

APPLES.

STANDARD VARIETIES.

FIRST CLASS 5½ to 7 feet. Each 20c; dozens \$2.00; 100 \$8.00.

SECOND CLASS. 4 to 5 feet, heavy. Each 15c; dozens \$1.00; 100 \$7.00.

GENERAL LIST.

EARLY HARVEST. Medium size, straw color, tender and sub-acid. July and August.

FALL PIPPIN. Very large, yellow, tender, juicy and rich; does well in all localities. October.

MAIDEN BLUSH. Large, smooth, with fine, evenly shaded red cheek; flesh white, tender; bearing large crops. September and October.

RAMBO. Medium; yellowish, with red and somewhat dotted, mild, tender and productive. October to December.

RED ASTRACAN. Large, nearly covered with deep red; overspread with a thick bloom, juicy, a good bearer and beautiful.

SUMMER QUEEN. Medium to large, yellow, streaked with red; mild and pleasant. Productive. July and August.

SWEET BOUGH. Large, pale, greenish yellow, tender and sweet; good bearer. August.

BALDWIN. Large, deep, bright, red, juicy, good flavor, very productive and handsome fruit; one of the best and most popular apples. January to April.

BEN DAVIS. Large, handsome, striped, productive, a late keeper. December to March.

GRIMES' GOLDEN. An apple of highest quality, medium to large size, yellow, productive, grown everywhere. Panuary to April.

HUBBARDSTON NONESUCH. Large, striped yellow and red, tender, juicy and fine; strong, good bearer. November to May.

NORTHERN SPY. Large, slightly conical; flesh white and tender; tree a good grower. January to March.

YELLOW TRANSPARENT. An early and annual bearer, fruit medium, slightly conical, pale yellow; quality good. Season, early in August.

RED BIETIGHEIMER. Fruit large to very large, flesh white, skin pale cream covered with crimson. Tree a free grower and abundant bearer. Early fall.

R. I. GREENING. Large, greenish yellow, tender juicy and rich; an abundant bearer. November to March.

ROME BEAUTY. Large, yellow, shaded with bright red; very profitable. November to February.

ROXBURY RUSSET. Medium to large, greenish russet, productive; valuable for long keeping. January to June.

TALMAN'S SWEET. Medium size, pale yellow, very firm; rich and very sweet. November to April.

YELLOW BELLFLOWER. Large, yellow with pale blush; very tender and juicy. In use all winter and one of the old favorite fruits which is always popular. November to April.

CRAB APPLES.

GENERAL GRANT. Fruit large, round, very dark red, flesh white and tender; excellent for dessert. October.

WHITNEY. Large, averaging two inches in diameter; tree a great bearer and very hardy.

TRANSCENDENT. Immensely productive, bearing a crop in the fourth year; one of the best. September and October.

SIBERIAN. Nearly as large as the above; fine golden amber color. September and October.

KENTUCKY RED. One of the best cider crabs. October.

PEACHES.

The peach tree requires a well-drained, moderately rich soil; a warm sandy loam is probably the best.

In order to preserve the continued healthy growth of the trees and the fine quality of the fruit, the trees should have the shoots and branches shortened every year, so as to preserve a round, vigorous head, with plenty of young wood; and the land should not be seeded to grass, but kept in constant cultivation.

The following have been selected after an examination of more than one hundred sorts bearing, only the best being chosen:

	Each.	Doz.	Per 100
First Class, 5 to 6 feet	15c	\$1.50	\$6.00
Second Class, 3 to 4 feet	10c	1.25	5.00
June Budded, by mail	15c	1.50	8.00

GENERAL LIST.

ALEXANDER. From Illinois; very early, size good, handsome and regular in form; freestone. July.

AMSDEN'S JUNE. Very early, remarkable for its keeping qualities; color beautiful red; flesh white, fine, July.

BEER'S SMOCK. Large size, yellow flesh, an improvement on Smock Free, few days later and an annual bearer. September and October.

CRAWFORD'S EARLY. Very beautiful, and the best yellow peach for market purposes; fruit very large, oblong, skin yellow, with fine red cheek; flesh yellow, juicy, sweet and excellent. Wonderfully productive. Last of August.

CHAIR'S CHOICE. Very large, deep yellow, with red cheek; strong grower and heavy bearer. September.

EARLY RIVERS. Large, light straw color, with delicate pink cheek; flesh juicy and melting, rich flavor. Last of August.

FORD'S LATE. Fruit large, productive, white and beautiful; flesh quite free; season after Smock. October.

FOSTER. Large, deep orange red, quite dark on sunny side, flesh yellow; very rich and juicy. Last of August.

GLOBE. A very rapid grower and an enormous bearer; fruit very large; flesh firm and juicy; yellow shaded with crimson, very rich, luscious. September and October.

HILL'S CHILI. Medium size, dull yellow, very hardy; a good bearer; highly esteemed as a market fruit. Last of September.

MOUNTAIN ROSE. One of the best and most reliable peaches; large, white, flesh white, sweet, productive. Early August.

LEMON CLING. Large, color a pale yellow when ripe, tree very hardy and productive.

OLD MIXON FREE. Uniformly large, white, covered with bright red; one of the best and most reliable. Last of August.

REEVE'S FAVORITE. Large, oblong, skin a deep yellow with orange cheek; very sweet and a good free stone. Middle of July.

STEVEN'S RARERIPPE. Large; fruit resembles an enlarged Old Mixon Free; of the highest color and very beautiful; very productive and free from disease. First of October.

SALWAY. Fruit large; deep yellow, with a rich marbled brownish cheek; firm, juicy and rich. October.

TRIUMPH.

The Earliest Yellow Peach in the World.

Fruit growers have long been looking for a good freestone market Peach to take the place of the Alexander. Triumph fully supplies the need. It ripens with Alexander; blooms late; has large flowers; is a sure and abundant bearer, and makes a very strong growth. Several trees (two-year-old buds) produced this season over half a bushel of fruit each. The fruit is large, with a very small pit, and is indeed beautiful. Surface is yellow, nearly covered with red, and dark crimson in the sun. Flesh bright yellow, free when fully ripe, and of excellent flavor. The Triumph marks an era in improved extra-early Peaches. It gives us a fine yellow freestone ripening 10 days and more in advance of any other yellow sort, and has received a hearty welcome from many of the best practical Peach growers of the age. Our trees are propagated from the original stock at a heavy expense. We place them on the market with entire confidence.

STEADILY. Large, of greenish white color, white to the stone, delicious, very hardy, freestone. First of October.

STUMP THE WORLD. Very large skin, white with bright red cheek; flesh white, juicy and good. Last of September.

WHEATLAND. Has been awarded first prize at N. Y. State Fair for quality and beauty. Middle of September.

YELLOW ST. JOHN. Large, orange yellow, with deep red cheek, flesh yellow. August.

ELBERTA. One of the best as to size, quality, beauty and productiveness. Large yellow, with red cheek, juicy and high flavor.

WONDERFUL. Large, golden yellow, with red cheek, very prolific. Late fall.

CROSBY. Resembles the Crawford's and is claimed to be, and we believe it to be, the hardiest of all. Ripens with Old Mixon. A sure bearer on account of its wonderful hardiness.

PEARS.

	Each.	Doz.	Per 100

GENERAL LIST.

VERMONT BEAUTY. This beautiful and valuable Pear originated on Grand Isle, Lake Champlain. It is very hardy, and free from blight: an annual bearer, resembles Seckel, though much larger.

LINCOLN CORELESS. This wonderful and remarkable late winter pear so far as we are able to ascertain, is a chance seeding. It originated in Lincoln county, Tennessee. The young trees are good growers, and free from blight. First class 35 cents each; \$3.50 per dozen.

IDAHO. This pear has attracted much attention, and is of real value. Fruit large, straw color, with blush on sunny side. Quality good. Price same as standard varieties.

KOONCE. This fine and valuable early pear, comes highly recommended; tree a vigorous grower, and free from blight; hardy and productive. Fruit medium to large. Prices. First class, 35 cents each, \$3.50 per dozen.

WILDER EARLY. One of the very best early pears; one point in its favor is early bearing. Trees often fruiting in the nursery row. Fruit medium size. Fine flavor and good. Price same as standard varieties.

BARTLETT. (D.) Large size with beautiful blush next the sun; very juicy and high flavored; bears early and abundantly. Very popular. August and September.

BUERRRE ANJOU. (D.) Large greenish; sprinkled with russet, shaded with dull crimson; excellent flavor; very productive and should be in every orchard. October and January.

CLAPP'S FAVORITE. (D.) Very large; excellent, yellowish green to full yellow with ripe, marbled with dull red in the sun; melting and rich. August.

DUCHESS DE ANGOULEME. (D.) Very large; greenish yellow streaked and spotted with russet; flesh white, buttery and very juicy, with a rich and very excellent flavor. October and November.

DEARBORN'S SEEDLING. Light yellow, sprinkled with small dots; juicy, melting and fine; an abundant bearer. August.

FLEMISH BEAUTY. Large, beautiful, juicy, rich and fine; good bearer. September and October.

SECKEL. Russet, with red cheek; rich, juicy and melting.

LAWRENCE. An early bearer and moderately spreading grower; of very fine flavor. The best winter Pear.

KIEFFER. Large; rich golden yellow; quality fair to good; juicy and fine; vigorous grown and very productive. An early bearer.

PLUMS.

	Each.	Doz.	Per 100
First Class, 5 to 7 feet	30c	\$3.00	\$14.00
Second Class, 4 to 5 feet	20c	2.00	9.00
Extra Size	40c	4.00	16.00

GENERAL LIST OF PLUMS.

BRADSHAW. Fruit very large; dark violet red; flesh yellowish green. August.

COE'S GOLDEN DROP. Large and handsome; light yellow; firm, rich, sweet. September.

DAMSON. Fruit small; skin purple, covered with deep bloom; rather tart. September.

GENIL. Very large, deep purple, covered with thick bloom; flesh yellow, sweet and pleasant. September.

GERMAN PRUNE. A large, long oval variety, much esteemed for drying; color, dark purple. September.

IMPERIAL GAGE. Fruit large, oval; skin pale green; flesh juicy, sweet, rich and excellent; vigorous and productive. August.

LOMBARD. Medium, violet red; juicy, sweet and good; adheres to the stone; productive and valuable market variety. August.

LINCOLN. This new plum comes highly recommended; it is a seeding of the old Green Gage; wonderfully prolific; in color reddish purple, very bright, showy and attractive. First class, 35 cents each; \$3.50 per dozen.

NIAGARA. Very large, reddish purple, entirely covered with green bloom, resembles Bradshaw. August.

OGON. Fruit large, round, bright golden yellow, with faint bloom; flesh firm, sweet and rich. Vigorous and hardy. August.

PRUNIS SIMONI. Fruit a brick red color; flesh apricot yellow; firm, hardy and valuable as an ornamental fruit tree.

SHROPSHIRE DAMSON. A plum of fine quality, larger than the common Damson. September.

SHIPPERS PRIDE. A large blue plum; very hardy and productive; esteemed as a market variety. September.

MOORE'S ARCTIC. Remarkable for its hardiness and freedom from curculio; a great bearer; a dark purple; flavor very fine.

WEAVER. Fruit large; purple; very prolific; regular bearer and of good quality; will stand the severest winters. August.

SPAULDING. A species of the Lombard and is curculio proof. It is not exempt from attacks of curculio, but for some reason the wound is soon outgrown. The fruit is large yellowish green, with a delicate white bloom. August.

ABUNDANCE. Perfect in growth, profuse in bearing and ripens early. The fruit is very large, showy and beautiful amber, turning to a bright cherry color with a white bloom; flesh light yellow, fancy and sweet. Begins to bear when quite young.

BURBANK. Claimed to be better than Abundance as it does not bloom so early, and is not so liable to be injured by the frost. It is one of the best of the Japan Plums. It is an early and annual bearer. The tree begins to bear when quite young.

CHERRIES.

STANDARD VARIETIES.

	Each.	Doz.	Per 100
First Class, 5 to 7 feet	20c	\$2.00	\$12.00
Second Class, 4 to 6 feet	15c	1.50	8.00
Extra, 7 to 8 feet	25c	2.50	20.00

BLACK TARTARIAN. Standard black sort.

COE'S TRANSPARENT. Amber, juicy. June.

DYE HOUSE. Resembles both the Duke and Morello in wood and fruit; early and sure bearer; ripens before Early Richmond; of better quality and productiveness. June.

EARLY RICHMOND. Dark red, melting, juicy; one of the most valuable. June.

ENGLISH MORELLO. Blackish red, juicy, acid. August.

GOV. WOOD. Light; red, juicy. June.

MAY DUKE. Dark red, rich. June.

MONTEMORENCY. Large, red, acid. June.

NAPOLEON. Pale yellow or red; very fine, juicy and sweet. June.

QUINCES.

First Class, 30 cents each; \$3.00 per dozen; \$20.00 per 100.

MEECH'S PROLIFIC QUINCE. This valuable new Quince has awakened great interest throughout the country. It often attains a growth of four feet or more the first year from the cuttings, continuing to make a like vigorous growth as the trees attain age. It is remarkable for its early and regular bearing and for productiveness, sometimes bearing when only two years old, and afterwards abundantly; the quality is extra good. It is shaped like a handsome pear, with a smooth, fine skin of a bright orange yellow, and very large, averaging under good culture 12 to 15 ounces each. First class, 50c each; \$3.50 per dozen; \$25.00 per 100.

CHAMPION. A variety originated in Connecticut. The tree is a constant and prolific bearer, fruit averaging larger than the orange; more oval in shape; quality equally fine and a longer keeper.

ORANGE. Large, roundish, bright golden yellow; cooks tender and is of a very excellent flavor. Very productive; the most popular and extensively cultivated variety.

REA'S MAMMOTH. A seeding of the Orange Quince, one-third larger, of the same form and color.

ORNAMENTAL TREES.

NORWAY MAPLE. A distinct foreign variety; with large broad leaves of a deep, rich green; one of the best and finest shade trees grown. First class, 75c each; \$8.00 per dozen.

SCARLET. A rapid growing tree, with red flowers in early spring. First class, 75c each; \$6.00 per dozen.

SILVER-LEAVED. An excellent shade tree of rapid growth; are desirable for immediate effect. First class, 75c each; \$6.00 per dozen.

POPLAR LOMBARDY. A very distinct, well known variety of rapid growth; and of tall, narrow form. Extra-size, 15 feet, 50c each; \$4.00 per dozen; 12 feet, 40c each; \$3.00 per dozen.

CAROLINA. This is perhaps the largest of all native poplars, suitable for park and tree planting, is free from attacks of insects, is not affected by gas; a wonderful grower, makes a beautiful ornamental tree, as well as a superior street tree; is largely planted in Eastern cities. Extra size, 15 feet, \$1.00 each; \$10.00 per dozen. 12 feet, 75c each; \$6.00 per dozen. 10 feet, 50c each, \$5.00 per dozen.

ELBERTA PEACH.
